BIDS OPENED

SAN FRANCISCO, Cal.—Bids were opened by the U. S. Engineer Office, Lt.-Col. J. A. Dorst, District Engineer, 401 Custom House, San Francisco, for furnishing:

(1) One lot fabricated structural steel consisting of 4 trusses and 32 "I" beams; f.o.b. Fort Funston;

(2) One lot fabricated struc. steel, consisting of 4 trusses and 32 "I" beams; f.o.b. Fort Cronkhite.

All bidders specified that freight rates would be deducted from bid prices if title is accepted at plants and steel shipped on government bill of lading. Complete bids were as follows:

J. H. Pomeroy & Co., Inc., S. F.—(1) \$32,486.96; (2) \$32,828.46; shipping point South Chicago.

Bethlehem Steel Co., S. F.—(1) \$34,800; (2) \$35,077; shipped by rail from Lakawanna, N. Y.; (1) \$31,800;

BIDS WANTED

LONG BEACH, Los Angeles Co., Cal.—Until May 25, 10 a.m., bids will be received by the Long Beach Harbor Commission, 130 S. Pico Ave., for constructing a rock dyke, hydraulic dredging, filling, and other work. Plans No. HD 50,000 and Spec. HD 63. Plans and specifications may be obtained from the Port Manager, D. A. Marshall, upon deposit of \$50. Certified check, bank draft, or bond, for 16% must accompany each proposal.

The work involves:

- constructing a rock dike betw. east jetty and east mole, including rock necessary to bring the southerly end of the east jetty and the east mole from Station 4 plus 58.53 to Station 9 plus 92.22 to grade. Approx. 38,000 tons class I and class II rock;
- rebuilding the east jetty to conform with top and slope lines shown on said plans by recovering rock along jetty, outside of slope lines, approx. 2,000 tons of rock, and replacing such rock to conform with top and slope lines shown on east jetty section of said plans;
- making blanket, fill side of east jetty, east mole and dike with rock and fine material to seal voids. Approx. 14,000 tons;
- dredging approx. 500,000 cu. yds. from the area noted on said plans to be dredged, and depositing in area of proposed fill noted on said plans;
- recovering approx. 1100 ft. of 36-in. C I pipe lying along ocean bottom east of the east jetty; constructing a sewer by-pass with a portion of this pipe, as shown on plans, and delivering the balance of the pipe to the City of Long Beach yard at San Francisco and 14th Sts., Long Beach.

BONDS VOTED

OXNARD, Ventura Co., Calif.—The \$1,750,000 bond issue to provide a harbor at Hueneme carried at the election in the Oxnard Harbor District May 5 by a vote of 2652 to 230. The proceeds from the sale of the bonds will be ample to construct a harbor on the revised plans, but should the application for \$783,000, now before the PWA in Washington be granted, some enlargement of the proposed facilities will be possible. Preliminary plans for the project were prepared by the engineering firm of Quinton, Code & Hill, Leeds & Barnard, Edison Bldg., Los Angeles. As planned, without federal aid, the project includes construction of an entrance channel 400 ft. wide; two jetties, one 1600 ft. long and the other 900 ft. long; a central turning basin, 1200 x 1400 ft., and 36 ft. in depth; two slips, 250 ft. wide by 600 ft. long; creosoted timber cargo wharf 100x67, and one creosoted timber oil loading wharf 42x250 ft.; one steel frame transit shed and warehouse 160x400 ft.; about 5400 lf. of standard gauge track and connections to Ventura County Railway; and heavy asphaltic concrete pavement for road and highway connections to harbor facilities.

32—SEWERS & SEWAGE DISPOSAL PLANTS

TO PREPARE PLANS

SANTA PAULA Ventura Co., Cal.—Harry N. Jenks, 2701 Benvenue Ave., Berkeley, has been retained by the Santa Paula city council as consulting engineer, to prepare plans and supervise the construction of the city's proposed new sewage disposal plant. Mr. Jenks had previously recommended to the council that the city build a rapid filter type plant. S. Gerald Bennett, city engineer, was authorized by the council to prepare plans and supervise construction of new lines to the plant.

Work has already started on nine settling basins in the Santa Clara river bed and a flume to conduct sewage to them from the stub end of the present line. Total estimated cost is \$2064.74. The project includes 1460 ft. of redwood flume, 300 ft. of wooden trestle, nine settling basins and 500 c.y. excavation.

The proposed new outfall line is estimated to cost \$35,295.48. It will consist of a 24-in. line which will conduct the sewage from the present outlet to the proposed new plant near Acacia Rd. The principal item in the estimate is \$18,720 for 7209 ft. of 24-in. vitrified pipe. Other items are: 50 wye branches, \$850; 6000 c.y. trench excavation, \$6000; 14 manholes, \$1400; 12,000 sq. ft. of pavement replacement, \$2400; 5400 sq. ft. oil and gravel pavement replacement, \$540; 10% for contingencies, \$2971; 8% for engineering, \$2,614.48. * 32

HILP ELECTED PRESIDENT OF AGC CHAPTER

New Board Names Officers for Coming Year; Prospects Outlined

Harry H. Hilp of San Francisco last week was elected president of the Central California Chapter, Associated General Contractors of America, to succeed retiring President John R. Cahill.

The election of officers took place at the meeting of the newly-elected board of directors, held in the association offices in the Shannon building.

Other officers are: Richard Walberg, vice-president; W. E. Lyons, treasurer, and William E. Hague, secretary - manager. Mr. Cahill will continue to serve on the board.

Unity Essential

Mr. Hilp has been active in building industry organization for many years. In assuming office, he said he had a keen appreciation of difficulties confronting the building industry and declared that in his opinion it was essential that general contractors should remain united in one organization in order collectively to deal with such problems as might arise.

Good labor relations are essential to successful building operations at this time, Mr. Hilp said. He congratulated retiring President Cahill on his stand for the principle of no stoppage of work through the medium of agreements fairly negotiated.

The need for sustaining the Building Trades Employers Association as a central clearing body was stressed by the new chapter president, who also suggested that all possible support should be given constructive efforts of the Builders Exchange of San Francisco for the benefit of the industry.

Plasterers' Strike

Mr. Hilp declared: "The only labor disturbance of any moment in the industry during 1937 was that of the plasterers' strike, which was quickly and amicably settled.

"It is also worthy of note that although a number of workers on

Harry H. Hilp, who last week was elected president of the Central California Chapter, Associated General Contractors of America. Mr. Hilp succeeds John R. Cahill, retiring president.

the San Francisco-Oakland Bridge are now out on strike owing to a jurisdictional electrical dispute, yet this strike has not extended to the San Francisco side, largely owing to the good influence of the Associated General Contractors, Central California Chapter, and its cooperation with the Building Trades Council of San Francisco and various craft unions. I hope that 1938 will see an amicable adjustment of any disputes that may possibly arise. While the building business has suffered from a slump since last September, yet there is reason to believe this condition will improve as the year goes on. Many factors are now at work to bring about such improvement."

He pledged the association to continued efforts toward avoiding all labor difficulties and arbitration of any disputes without cessation of work.

FREDERICKSEN, WESTBROOK BID PAVING PROJECT

Lower Lake Firm Low at \$194,191 on Stanislaus Job; Wood Low on Bridge

SACRAMENTO, May 18. — Low bids totaling \$216,981 today were submitted to the State Division of Highways for grading, surfacing and construction of bridges in Stanislaus and Mendocino counties.

Fredericksen & Westbrook, Lower Lake, at \$194,191.35, submitted the low bid for 5.8 miles of grading and paving with Portland cement concrete and construction of bridges between Modesto and Salida in Stanislaus county. Their bid was based on Alternate A calling for the use of precast concrete piles.

Bridges Creek Span

Claude C. Wood, Stockton, at \$227,905.50, was the low bidder for constructing a bridge across Bridges Creek about 21 miles south of Garberville in Mendocino county.

The bridge will consist of one 38-foot steel beam span, four 19-foot and one 15-foot timber spans, all on concrete footings and timber bents.

Fredericksen & Westbrook's subtotal on the Stanislaus county job was \$189,051.35. This figure does not include the alternate amount.

Other sub-totals included: Louis Biasotti & Son, \$189,457.15; Union Paving Company, \$192,593.90; Macco Construction Co., \$196,197.30 and Griffith Company, \$206,720.55. Nine firms submitted bids on the job.

MAGNETIC STARTING SWITCHES DESCRIBED

A 4-page leaflet describing and illustrating G-E magnetic motor-starting switches (CR7006) for full-voltage starting of A-C motors is a recent publication of General Electric Company, Schenectady N. Y. The bulletin also lists and illustrates several types of push-button stations for use with the switches. Copies may be obtained by writing the company and requesting Catalog folder No. GEA-2889.

152 California Post Offices Listed As "Eligible" Under Proposed New Program

Compiling its list of eligible projects under the proposed \$60,000,000 federal building program, the House Appropriations Committee last week included 152 California buildings from which selection may be made, according to advices from Washington.

Total cost of eligible projects throughout the nation will be about

\$171,436,000. Since roughly about one-third of this amount would be made available by the proposed appropriation, it may be assumed that California projects finally selected for construction under the new program will number about one-third of the total listed as "eligible." Final selection will be made by the Postmaster General and the Secretary of the Treasury.

Eligible California projects, it was announced, include the following:

Seek \$10,000,000 Air Base in Alaska

A proposal for construction of a \$10,000,000 air base at Fairbanks Alaska, has been made recently and approval of President Roosevelt is being sought, according to word received here from Washington.

The base would consist of eight hangars to cost about \$2,800,000; officers quarters, \$1,638,000; non-commissioned officers quarters, \$1,083,600; barracks, \$600,000; other buildings and installations, \$2,088,450; runways, drainage and technical buildings, \$1,418,300.

The estimate, exclusive of the price of the site, improvement of landing field, drainage and other technical problems based on the Fairbanks site, are tentative.

Submarine base, Coco Solo: Quarters and accessories for chief petty officers, \$288,000; quarters and accessories for officers not to exceed \$40,000 for each apartment house to accommodate four families, \$360,000. Fleet Air Base, Coco Solo: Quarters for chief petty officers, \$180,000; extension of hangar No. 101, \$140,000.

California: Naval Air Station, Alameda: To continue the development authorized by the act approved June 24, 1936, as amended: \$4,800,000.

MODINE LISTS UNIT AIR CONDITIONERS

A new compact, self-contained unit for air conditioning apartments, offices, stores and residences is announced by the Modine Manufacturing Company, Racine, Wis. Information regarding the Modine Conditioner may be obtained without charge upon request to the company at the above address.

Access doors to the motor and blower, control panel, water valves, heating and cooling coils, and humidifier trays are one side of the unit only. All piping and conduit connections are likewise made from this same side and through one end. The overall height of the conditioner is 18 inches. Two models the 74 and 155 are available—both with either hot water or steam heating coils, and cold water or refrigerating cooling coils.

State Advertiser Five Bridge, Highway Contracts; Openings Set for June 9-15

SACRAMENTO, May 24.—The State Highway Commission today authorized calling for bids on five bridge and highway construction contracts for work in Monterey, Yuba, Santa Barbara, Calaveras and Orange counties.

Bids on the Orange county job will be opened in Los Angeles, June 15. The southern job involves about 0.2 mile of grading and plant-mix surfacing near Galivan in Orange county. Principal items include: 145,000 cubic yards of unclassified excavation; 145 tons of liquid asphalt of various types; and 5700 tons of imported subgrade material.

Northern Projects

Bids will be opened in Sacramento June 15, for about three miles of grading and surfacing with imported borrow and road-mix surface treatment in Santa Barbara county. The stretch of road to be improved lies between Los Olivos and Zaca.

Principal items include: 103,000 cubic yards of unclassified roadway excavation; 40,500 sq. yds. of preparing, mixing and shaping roadbed; 455 tons of liquid asphalt of various types; 39,700 lbs. of bar reinforcing steel; 3600 cu. yds. of ditch and channel excavation; and 146,000 station yards overhauled.

Construction of a reinforced concrete bridge at Dry Creek, about 13 miles east of Marysville in Yuba county, is called for in the third contract. Grading and applying seal coat to about 0.2 mile of roadbed is included.

The work involves: 5300 cubic yards of unclassified excavation; 3.5 tons of liquid asphalt; 240,000 pounds of bar reinforcing steel, and 1270 cubic yards of Class A Portland cement concrete structures.

Soledad Paving

The fourth contract for which bids were called by the State Highway Commission today involves grading and paving with Portland cement concrete about one mile of Salinas bridge approaches at Soledad in Monterey county.

The job involves the following principal items: 13,500 cubic yards of unclassified excavation; 10,000

PROPOSALS ON 4 JOBS OPENED AT SACRAMENTO

Caletti, Young & Son, Conner Low Bidders on Other Contracts

SACRAMENTO, May 25.—Hanrahan Co., Hobart building, San Francisco, today submitted a low bid of \$335,324 to the State Division of Highways here today on the largest of four major projects on the day's bid-opening schedule.

The low proposal of Hanrahan Co. was for bridge construction, grading, surfacing and paving on about 5.7 miles in Merced county, on a stretch of highway extending southerly from the city of Merced. The \$335,324 low proposal was on Alternate B, using mandrel type concrete piles. On Alternate A, using piles not requiring mandrels, the firm's price was \$338,801.

Macco Second

Macco Construction Co., Clearwater, figuring Alternate B only, was second low bidder at \$337,328.

Griffith Co., Los Angeles, submitted bids of \$358,414 on B and \$360,651 on A, while Frederickson & Westbrook, Lower Lake, figured the job at \$358,636 on either A or B.

C. W. Caletti & Co., P. O. Box 243, San Rafael, was low bidder at \$86,095 for grading, surfacing and constructing a concrete box culvert in Shasta county between Seaman's Gulch and 6.3 miles east of Ingot and at eight-tenths of a mile east of Bella Vista.

Trinity Surfacing

Young & Son Co., Ltd., 599 Colusa avenue, Berkeley, submitted a low bid of \$87,874 for grading and surfacing 4.1 miles at various locations between Big Bar and Junction City, Trinity county. Only two other bids were received on this contract: Harold Smith, St. Helena, at \$89,224; and N. M. Ball Sons, Berkeley, at \$106,280.

J. L. Conner & Sons, Hotel Serra, Monterey, at \$38,890 submitted the lowest of four bids for grading and surfacing two-tenths of a mile and constructing underdrains about a mile southwest of Cordelia underpass in Solano county.

REDDING WATER JOB BIDS ASKED

The Redding City Council this week called for bids on the second unit of the municipal water system, expected to cost approximately \$208,000.

Bids will be opened June 15 at the City Hall. Work on the first unit of the project is underway already. The second unit will include the city distribution system, with cast iron cement-lined pipe, copper and cast iron services, and new hydrants, according to City Engineer W. K. Adams.

square yards of preparing, mixing, and shaping shoulders; 20 tons of liquid asphalt; and 2640 cu. yds. of Class A Portland cement concrete pavement.

Unit prices will be submitted on thirty-four items.

The fourth job for which bids will be opened by the Division of Highways, June 15, involves 5.9 miles of surfacing with gravel and plant-mix surfacing between 2.5 miles east of Valley Springs and San Andreas, in Calaveras county.

Unit prices will be submitted on fifteen items. Principal items include: 500 cubic yards of unclassified roadway excavation; 15,400 cubic yards of imported gravel; 13,000 tons of mineral aggregate plant-mix surfacing; 90 tons of liquid asphalt; 75 tons of seal coat, and 690 tons of screen seal coat.

Shipments of hand fire extinguishing equipment for Mar., 1938, amounted to 33,259 units, as compared to shipments of 41,869 units in the same month last year, according to the Bureau of Census.

\$35,939,450 BID LOWEST OF TWO; FIGURES CLOSE

**S. F. Contractors' Proposal
Only \$263,000 Over
Other Figure**

SACRAMENTO, June 1.—Two syndicates representing many of the nation's largest contractors, today submitted spectacularly close bids to the United States Bureau of Reclamation here for construction of Shasta Dam and Power Plant, largest single unit of the Central Valley Project.

Low bidder was Pacific Constructors, Inc., 609 South Grand avenue, Los Angeles, with a proposal of \$35,939,450.00.

Shasta Construction Co., 1000 Balfour building, San Francisco, submitted a bid of \$36,202,357, less than \$263,000 higher than the low proposal.

More than 250 contractors, engineers and others were in attendance at the bid opening.

Pacific Constructors includes contractors from all parts of the United States. The syndicate's bid was signed by W. A. Johnson, President, and J. W. McGuire, Secretary. Listed as stockholders are the following firms:

L. E. Dixon Co., Los Angeles; Griffith Co., Los Angeles; Metropolitan Construction Co., Los Angeles, The Arundel Corp., Baltimore, Md.; American Concrete and Steel Pipe Co., Los Angeles; D. W. Thurston, Los Angeles; Lawler & McGuire, Butte, Mont.; Shofner, Gordon & Hinman, Denver, Colo.; W. E. Callahan Co. & Gunther Shirley Co., Dallas, Texas; A. Guthrie and Co., St. Paul, Minn.; Hunkin-Conkey Co., Cleveland, O., and Foley Bros., New York City.

Firms listed as Shasta Construction Company stockholders are:

J. F. Shea, MacDonald & Kahn Co., Ltd., Pacific Bridge Co., Guy F. Atkinson, and Utan Construction Co. of San Francisco; Morrison-Kundsen Co., Boise, Idaho; General Construction Co., Seattle, Wash.; T. J. Walsh Construction Co., Davenport, Iowa; and H. J. Kaiser, Oakland. Charles A. Shea is President, and Paul Wattis, Secretary.

OPENING DAM BIDS

A \$36,000,000 contract hung in the balance as this photograph was snapped Wednesday in Sacramento. Construction Engineer Walker R. Young of the U. S. Bureau of Reclamation, standing before the microphone, reads the low bid of Pacific Constructors, Inc., for construction of Shasta Dam and power plant. Members of the Bureau staff at the table included, left to right: Phil Dickinson, information; Robert S. Thomas, engineer; Mr. Young; Nelson B. Hunt, office engineer; Arthur R. Honnold, district counsel; and Harry S. Riddell, engineer.

Dam Construction To Employ 5000

Construction of Shasta Dam will employ an average of about 2500 men, according to the estimate of L. E. Dixon, representative of Pacific Constructors, Inc., at yesterday's bid opening.

His estimate agreed with that of Construction Engineer Walker R. Young of the Bureau of Reclamation, who declared that peak employment probably will reach about 5000 men, with an average taken from beginning to end of the job of about 2500. Employment during the first stages will be light.

Mr. Young declared workers will be hired directly by the contractor.

Mr. Dixon told reporters at a press conference that should Pacific Constructors be awarded the contract workers will be hired through established employment services. Those seeking employment on the project were warned to register with the employment service offices in their own communities to avoid futile trips either to Redding or to Los Angeles.

Shasta Dam, for which bids were opened yesterday by the Bureau of Reclamation in Sacramento, will be the second largest concrete dam in the world, both as to height and mass. Its only rivals will be Boulder Dam, completed by the Bureau on the Colorado River, and Grand Coulee Dam under construction by the Bureau on the Columbia River.

- (99) 3,500 c.y. concrete in retaining and tailrace cut-off walls;
- (100) 400 c.y. concrete in road structures and paving for gantry-crane siding;
- (101) 8,500 c.y. concrete backfill in exploratory tunnels and shafts;
- (102) 260 c.y. concrete backfill in shafts and galleries of dam;
- (103) 100 c.y. concrete backfill in pipes 8-in. nominal diameter and larger;
- (104) 4,960,000 c.y. cooling cement;
- (105) 7,500 sq. yds. special finishing of concrete surfaces;
- (106) 1,200 recesses, finishing lighting;
- (107) 100 sq. yds. chipping and roughening concrete surfaces;
- (108) 26,000,000 lbs. placing reinf. bars and fabric;
- (109) 128,000 intersections, insulating reinf. bars and conduit;
- (110) 1,400 welds of reinf. bars;
- (111) 360,000 l.f. install metal sealing strips in contraction and expansion joints;
- (112) 10,000 l.f. install metal sealing strips in construction joints in powerhouse;
- (113) 130,000 l.f. install cover plates on grout grooves;
- (114) 55,000 sq. ft. install expansion joint filler and shock absorb. pads;
- (115) 1,500 l.f. install and rellequify asphalt seals;
- (116) 35,000 sq. ft. install bituminous-saturated felt roofing, complete with flashing;
- (117) 33,000 sq. ft. 1-in. bit. mastic on roofs;
- (118) 5,200 sq. ft. placing 2-in. cork insulation on roof;
- (119) 60 c.y. lightweight concrete in floors;
- (120) 38,000 lbs. install metal intermediate framing members for glass-block panels;
- (121) 5,000 sq. ft. install glass block;
- (122) 1,000 sq. yds. const. suspended ceilings;
- (123) 60 sq. yds. const. hollow walls of metal lath and plaster;
- (124) 3,000 sq. yds. plaster on concrete walls and ceilings;
- (125) 2,100 sq. ft. install lead-sheet membrane waterproofing;
- (126) 7,700 sq. ft. install 5-ply bituminous membrane waterproofing;
- (127) 7,000 sq. yds. waterproofing of exterior walls;
- (128) 3,700,000 lbs. install drum gates;
- (129) 320,000 lbs. install drum gate control mechanisms;
- (130) 2,200,000 lbs. install gate frames, seats, guides, stop-log seats and guides;
- (131) 1,000,000 lbs. install penstock coaster gates and diversion-tunnel coaster gate;
- (132) 500,000 lbs. install hoists for penstock coaster gates and diversion tunnel coaster gate;
- (133) 400,000 lbs. remove, dismantle and store diversion-tunnel coaster gate and gate hoist;
- (134) 350,000 lbs. install bulkhead and coaster gates in dam and power plant;
- (135) 4,700,000 lbs. install ring-seal gates and conduit-lining castings;
- (136) 100,000 lbs. install needle valves;
- (137) 100,000 lbs. install pumps and ejectors;
- (138) 10,000,000 lbs. install main-unit penstocks;
- (139) 1,400,000 lbs. install 86-in. dia. pipes for needle-valve outlet works;
- (140) 260,000 lbs. install 48-in. diam. penstock;
- (141) 2,000,000 lbs. install welded plate-steel conduit linings;
- (142) 900,000 lbs. install struc. steel;
- (143) 865,000 lbs. install struc. steel and metalwork for bridges;
- (144) 550,000 lbs. install traveling and gantry cranes;
- (145) 550,000 lbs. install track rails;
- (146) 210,000 lbs. install trashrack seat and bearing plates;
- (147) 3,200,000 lbs. install trashrack weirs;
- (148) 410,000 lbs. install metal tubing and brass, steel, wrought-iron and cast-iron pipe, fittings and valves less than 6-in. nominal diameter;
- (149) 1,500,000 lbs. install metal tubing and brass, steel, wrought-iron, and cast-iron pipe, fittings and valves 6-in. and greater nominal diam.;
- (150) 1,000,000 lbs. install metal tubing and fittings for concrete cooling system;
- (151) 1,400,000 lbs. install contraction-joint grout tubing and fittings;
- (152) 30,000 lbs. install metal pipe handrails;
- (153) 250,000 lbs. install metal stairways;
- (154) 61,000 lbs. install embedded metalwork for floor openings;
- (155) 45,000 lbs. install grating, platforms, and covers for floor openings;
- (156) 16,000 lbs. install metal catch basins and drain inlets;

31—PIPE LINES & WELLS

BIDS OPENED
 SAN FRANCISCO.—W. J. Tobin, 3701 Balfour Ave., Oakland, at \$4-034.20 submitted the low bid to the Public Utilities Commission, Room 287, City Hall, under Spec. W.D. 177, for laying 4-in., 6-in., and 8-in. cast iron mains in Section 1 of Lakeside Subdivision No. 2.

- Work involves:
- (1) 2,150 l.f. excav. and backfill for 4-in., 6-in., and 8-in. pipe trench 17 inches wide by 36 inches deep;
 - (2) 10 c.y. additional excav. and backfill;
 - (3) No Item 3;
 - (4) Installing pipe:
 - (a) 380 l.f. 4-in. bell and spigot cast iron pipe;
 - (b) 860 l.f. 6-in. bell and spigot cast iron pipe;
 - (c) 810 l.f. 8-in. bell and spigot cast iron pipe;
 - (5) 5,500 lbs. fittings, gate valves, etc., installed;
 - (6) 360 l.f. bell and spigot joints for pipe and fittings;
 - (7) 540 sq. ft. repavement;
 - (8) 36 ½-in. screw taps installed;
 - (9) 810 l.f. ½-in. copper service pipe installed;

State Invites Proposals on Six Northern, Two Southern Contracts; Bids June 29-30

SACRAMENTO, June 7.—Renewed highway construction activity in California loomed today as the State Highway Commission authorized calling for bids on eight highway and bridge construction jobs in as many counties.

The lion's share of the new highway work went to Northern California with bids on six of the eight jobs scheduled to be opened in Sacramento, and proposals on the remaining two in Los Angeles.

Bids will be opened in Sacramento, June 29, and in Los Angeles, June 30.

Bids were called on the following Northern California projects:

Alturas Bridge

MODOC COUNTY: construction of a reinforced concrete slab bridge across the north fork of Pit River in the City of Alturas, consisting of one 45-foot span and two 15-foot cantilever spans on concrete piles.

SONOMA COUNTY: 2.4 miles grading and surfacing with plant-mix between 1.5 miles southeast of Sebastopol and 3.9 miles southeast of Sebastopol.

SANTA BARBARA COUNTY: 3.9 miles of grading and plant-mix surfacing between Guadalupe and Santa Maria.

SHASTA, LASSEN and MODOC COUNTIES: work on 33.4 miles in various locations.

MENDOCINO COUNTY: 7 miles plant-mix surfacing of county and the southerly boundary of county and Hopland.

INYO COUNTY: construction of a steel beam and reinforced concrete deck bridge and 0.8 mile of grading and surfacing near Camp Sabrina.

Bids were called on the following Southern California jobs:

LOS ANGELES CO.: about 0.9 mile grading and paving with asphaltic concrete, portland cement concrete, and plant-mixed surfacing between Pasadena and 22nd avenues.

LOS ANGELES: about 0.8 mile to be graded and paved with portland cement concrete, asphaltic concrete and plant-mixed surfacing between Fair Oaks avenue in South Pasadena and Glenarm street in Pasadena.

DAM FIRM FILES INCORPORATION

SACRAMENTO, June 7.—Pacific Constructors, Inc., the syndicate which last week submitted a low bid of \$35,969,450 to the U. S. Bureau of Reclamation for construction of Shasta Dam and power plant, yesterday filed incorporation papers with Secretary of State Frank C. Jordan.

Signing as incorporators were L. H. Herman, Walter Lenz and B. R. Jones. Organized as a Delaware corporation authorized to issue 3000 shares of no-par-value stock, the firm listed J. C. Maguire of Los Angeles, as business agent. W. A. Johnson, head of American Concrete & Steel Pipe Co., is president.

Main, Track Repair Bids Asked by City

The San Francisco Public Utilities Commission yesterday issued three calls for bids to be opened June 21, 22 and 23 for alterations to the service and main switchboard at City Hall, laying of mains in Merced Manor Subdivision, and reconstructing Judah street tracks of the Municipal Railway between Eighteenth and Nineteenth aves., respectively.

Reconstruction of the Judah St. tracks will be carried on concurrently with the widening and reconstruction of Nineteenth avenue between Lincoln Way and Lawton street, for which bids have been called by the Department of Public Works.

COLORADO RIVER PROJECT—DIVERSION DAM—(Govt.)

COLORADO RIVER PROJECT.—Rohi-Connelly Co., 4351 Valley Blvd., Los Angeles, at \$1,890,407, submitted the low bid to the U. S. Indian Irrigation Service, Los Angeles, for the construction of a diversion dam for the Colorado River at Head Gate Rock, approximately 1 mile above Parker, Ariz., the Colorado River Project. Plans call for a rolled earth fill dam, a portion of which will be in Arizona and a portion in California. The dam is to be 45 ft. above the river bed; total crest length 1450 feet; excavation for the foundation will be 35 feet below the river bed. The spillway will be constructed through the Arizona abutment of the dam, bottom width 245 feet; depth of excavation from 12 to 135 feet. Excavation will be approximately 1500 feet long, which will be concrete lined. Included in the contract will be 2000 feet of concrete lined canal, bottom width 26 feet, average

depth of excavation 80 feet. The dam will be constructed from materials delivered from spillway and canal with the exception of a small amount of borrow and fine materials. Borrow probably will be adjacent to dam site. In addition to dam and spillway a protective barrier will be constructed about 850 feet downstream. This will consist of lower fill protected by a heavy blanket of rock riprap. Flow through the spillway will be controlled by seven 20 x 30-ft. radial gates and two 15 x 20-ft. gates. Flow through the canal will be controlled by two 12 ft. 6 in. 20-ft. radial gates. The contractor is to furnish everything except radial gates, hoists and all metal and electric materials and equipment. The right to supply cement and reinforced steel is reserved by the government providing option is exercised prior to date of order for contractor to proceed.

Work involves:

- (1) lump sum, diversion and care of river during constr. of dam and unwatering foundations;
- (2) 60,000 c.y. excav. stripping of borrow and gravel pits;

SAN FRANCISCO FAIR BUILDING OUT FOR BIDS

State Commission to Open
Bids July 1 on General
Contract

Bids for construction of the San Francisco building and for certain decorative portions of the State exhibit center on Yerba Buena Shoals were invited yesterday by the California Commission for the Golden Gate International Exposition.

Proposals on the general contract will be opened July 1, Executive Officer C. H. Purcell announced.

The contract calls for general construction of the San Francisco building; Main Entrance, California Court; and Walls and Planting Boxes, San Francisco Court.

A two-story structure, the San Francisco building will house exhibits of the city and county of San Francisco. Contracts covering construction of the Alameda-Contra Costa building, the Shasta-Cascade building and the Mission Trails building already have been let by the Commission.

The San Francisco building will be constructed on pile foundations being placed under a separate contract.

Resitex Finish

It will be a frame structure containing about 40,000 square feet of floor space, surrounding an inner court 65 by 92 feet in size. The exterior of the building will be plywood with resitex finish.

Adjoining the San Francisco building will be the Main Entrance, a roof of decorated canvas supported by columns of plywood. The court of San Francisco will be built along oriental lines, with surrounding walls of plywood.

Clarence A. Tantau served as consulting architect. Timothy L. Pflueger is supervising architect for the Commission. Advertisement of the work is handled by the State Division of Architecture, George B. McDougall, State Architect.

HARNEY LOW ON SECOND SECTION OF 19th AVENUE

Contractor for First Section
Submits \$121,845 Proposal
for Second Unit

Chas. L. Harney yesterday "repeated" on the Nineteenth avenue improvement project by submitting the low bid to Director William H. Worden of the San Francisco Department of Public Works for construction of the second section of the half million dollar project.

Harney's bid on Section B, Lincoln Way to Lawton street, was \$121,845.20—almost \$6000 lower than the closest competing firm's proposal.

Fay Second Bidder

The Fay Improvement Company, at \$127,727, submitted the second lowest bid.

Other bidders were: Pacific States Construction Co., at \$128,564.50; Eaton and Smith, at \$132,815; and A. G. Raisch, at \$133,864.

Charles L. Harney was awarded the contract for construction of Section A of the Nineteenth avenue improvement project, running from Sloat boulevard to Taraval street, last October. The award was made at the bid price of \$110,316.90. The work was completed recently.

Track Reconstruction

Section B will be a similar job, according to engineers. Changing the grade of Municipal N car tracks will be handled under a separate contract by the Public Utilities Commission. Bids will be opened June 23 on the contract.

The Link-Belt Company, at \$4,245, submitted the low bid to Director Worden for construction of two sand and rock dryers for the Municipal asphalt plant. Other bidders were: Bodenson Mfg. Co., \$4,762; California Steel Products Co., \$5449; Ocean Shore Iron Works, \$6748; and Union Machine Company, \$6956.

Bids were received on another school improvement job. M. J. King at \$2125, submitted the low bid for interior plastering of Argonne School, and James F. Smith, at \$4593, was low for the exterior plastering of Cleveland School. Vance Peterson and A. W. Cordes also submitted bids on the contracts.

Otis Elevator Company, at \$2,583, was the low bidder for increasing travel and making other changes to a passenger elevator at the Hall of Justice. The only other bidder was the San Francisco Elevator Co. at \$2,846.75.

At the informal bid opening held yesterday, Standard Fence Co. at \$59.36, was the low bidder for furnishing and installing chain link fence at Patrick Henry School.

No formal bid calls were issued by Director Worden yesterday. Informal bids were called for a minor sewer improvement contract.

Six Bridge, Highway Projects Advertised By State; Bids Scheduled for July 6-7

SACRAMENTO, June 14.—The State Highway Commission today authorized calling for bids on six highway and bridge construction projects in San Mateo, Yolo, Humboldt, Los Angeles and San Bernardino Counties.

Bids on the first three will be opened in Sacramento, July 6; bids on the remaining contracts, two of which are in Los Angeles county, will be opened in Los Angeles, July 7.

The first Northern California project involves construction of a reinforced concrete bridge across Colma Creek in South San Francisco, San Mateo county.

The bridge will consist of one 24-foot span and two 19-foot 6-in. spans. About 0.06 mile of grading and surfacing of approaches is included in the contract, also.

Principal items include: 63,000 pounds of reinforcing steel; 300 cubic yards of Class A Portland cement structures; furnishing 1810 lineal feet of precast concrete piles; 15.75 tons of liquid asphalt; and 3.2 stations finishing roadway.

On the same day bids will be opened on a contract calling for construction of a reinforced concrete bridge across Cache Creek in Yolo county. About half a mile of approach roads are to be graded and surfaced. The work is located about three and one-half miles northeast of Rumsey.

The work involves: 2700 pounds of miscellaneous steel; 1015 cubic yards of Class A Portland cement structures; 280 cubic yards of Class A Portland cement footing blocks; 53.8 tons of liquid asphalt; 15,400 cubic yards of unclassified roadway excavation; and 31,200 station yards overhaul.

The Humboldt county project involves about one-quarter mile of grading and surfacing with plant-mix surfacing and sacked concrete, and placing riprap. The work is located at Greenlaw Bluffs, Humboldt county.

The three Southern California projects, for which bids will be opened July 7, involve construction and reconstruction of bridges, as follows:

San Bernardino county: a reinforced concrete slab bridge across Cucamonga Wash, two miles east of Ontario, consisting of five 22-ft. spans and two 20-ft. spans and two 5-ft. 6-in. cantilever spans on concrete pile bents.

Los Angeles county: construction of a reinforced concrete girder bridge across the Santa Clara River about five miles east of Saugus, consisting of eight 50-ft. spans and two 12-ft. 3-in. spans on reinforced concrete piers and abutments.

Los Angeles county: repairing a bridge across Malibu Creek about ten miles northwest of Santa Monica.

WILDER WILL DIRECT CITY PUBLIC WORKS

Former State PWA Director
Named to Succeed Worden
In Department

A. D. Wilder, widely known San Francisco engineer, yesterday was appointed by Mayor Angelo Rossi to succeed William H. Worden as director of the City Department of Public Works.

Executive engineer for the San Francisco housing authority, Wilder served as State WPA Director until the administration was reorganized last year on a regional basis.

Walter H. Sullivan, chairman of the housing authority, yesterday said that he would ask that Wilder be retained as executive engineer of the project until August 1 in order that he might complete the work now being carried out. Whether Mr. Worden, retiring director, will remain in his present post until August 1, or whether Mr. Wilder will hold both jobs during the month of July was not revealed yesterday. Mr. Wilder's present position carries a salary of \$5,000 per year while the director's post calls for \$8,000.

Alvin D. Wilder graduated from the University of California in 1908. Since that time he has held prominent engineering positions in the United States, Canada and Hawaii.

Following graduation he was engaged in railroad engineering until 1911 when he became a member of the staff of the Pan-Pacific Exposition. As assistant civil engineer and later as assistant structural engineer in charge of building construction he stayed with the Exposition until 1915 when he became a consulting engineer for the Spring Valley Water Company in San Francisco.

After a year in highway construction work during 1917 he went to Canada where he was engaged in water power and railroad construction work until 1924. After working on the Twelfth street bridge in Kansas City, he returned to Vancouver for railroad harbor work. In 1930 he came to San Francisco to enter private practice. With the exception of a project in Honolulu he has remained in San Francisco since

Bids on \$10,500,000 Earthfill Dam To Be Opened August 8 in Los Angeles

Construction of the \$10,500,000 Hansen Dam, retention basin structure for the Tujunga Wash, neared this week as the U. S. Engineer Office, Los Angeles, issued a call for bids, to be opened August 8.

The site of the 9050-foot retention basin dam lies within the City of Los Angeles about 1.4 miles northeast of San Fernando Road, and about three miles southeast of the City of San Fernando.

Plans and specifications for the structure were prepared under direction of Major Theodore Wyman, Jr., District Engineer, who estimates that the project will cost about \$10,500,000.

Typical Earthfill Dam

The Hansen Dam will be a typical earthfill structure. It will be 9050 feet in length, with a maximum height of 100 feet.

The spillway of the proposed dam will have a capacity of approximately 100,000 second-feet. As planned, Hansen Dam will impound about 36,000 acre-feet at the spillway elevation.

The dam is expected to take 915 calendar days to complete. If it is not completed in that time, a penalty of \$500 per day will be levied until the structure is put in safe and operating condition as determined by the Contracting Officer, according to specifications.

The bid form calls for a total bid, exclusive of Item 38-C which calls for furnishing, bending and placing 1,100,000 pounds of structural steel. A total bid exclusive of Items 38-A and 38-B will be submitted also. The items call for: furnishing and placing 4,000,000 pounds of reinforcing steel in counterforted spillway retaining walls, except inclined steel in counterforts, and furnishing, bending and placing 1,000,000 pounds of reinforcing steel in spillway retaining walls and counterforts, respectively.

The contractor will divert and care for water during construction, remove existing structures, and clear and grub dam and dike sites. The latter item involves 266,000 cubic yards of stripping.

Construction of Hansen Dam involves the following amounts of excavation: 639,000 cubic yards of common excavation; 8,600,000 cubic yards of excavation in borrow pit "A"; 5,620,000 cubic yards ex-

BIDS AUGUST 12 FOR INFIRMARY

Bids on two major California projects for the Veterans' Administration will be invited shortly, with the opening date set tentatively for August 12, it was learned yesterday.

The projects are: an infirm-ary building on the site of the old infirmary at Palo Alto, and two Continued Treatment buildings at Los Angeles. Plans and specifications for the Palo Alto job will be available to contractors July 9.

On July 8, plans and specifications on the continued treatment buildings will be available to contractors in Los Angeles. The buildings will take 400 and 450 days to complete, respectively.

cavation in borrow pit "B"; and 95,000 cubic yards of rock excavation.

Embankment items include: 4,480,000 cubic yards in Zones 1 and 3; 2,650,000 cubic yards in Zone 2; 1,998,000 cubic yards in Zone 4; 3,420,000 cubic yards in Zone 5; and 95,000 cubic yards in Zone 6.

About 6,800,000 squares (100 sq. ft.) of rolling for each additional three trips is called for, also.

Unit prices will be submitted on sixty-two items.

The California State Employment Service, affiliated with the United States Employment Service, announces a new location for the Industrial (men and women), Hotel, Restaurant, Domestic and Junior departments, at 1690 Mission street, San Francisco, telephone HEmlock 3800. The Commercial department remains at 154 Sansome St., telephone EXbrook 5656.

SCHEDULE BIDS ON FIVE STATE HIGHWAY JOBS

Bridge, Road Work in 6 Counties Advertised for Proposals

SACRAMENTO, June 21. — The State Highway Commission today authorized calls for bids for bridge and highway construction in Contra Costa, Fresno, Madera, San Bernardino, Orange and Los Angeles counties.

Bids on the Contra Costa and Fresno-Madera projects will be opened in Sacramento, July 13. On the following day, July 14, bids on the remaining jobs will be opened in Los Angeles.

The largest Northern California contract calls for about 8 miles of grading and surfacing and construction of three reinforced concrete slab bridges between Muir and Willow Pass in Contra Costa county. The work involves construction of soil cement base and crusher run base topped with plant mixed surfacing.

The second Northern California job involves construction of a bridge across the San Joaquin River about four miles northeast of Auberry in Fresno and Madera counties. The bridge will consist of a through steel truss span with timber stringer approach spans and concrete decks.

Bids will be opened in Los Angeles, July 14, for construction of three reinforced concrete slab spans on concrete piers and abutments as an extension to an existing bridge over Arroyo Seco Parkway at Avenue 60 in Los Angeles county.

On the same day bids will be opened for construction of bridges in Orange and San Bernardino counties.

The first job involves construction of a reinforced concrete girder bridge across Santiago Creek about one-quarter mile south of Orange. The bridge will consist of one 91-foot span and two 49-foot spans on concrete piers and abutments.

FRAME PERMITS SHOW INCREASE, OTHERS DECLINE

S. F. Building During May Totals \$1,670,000, Bureau Reports

A \$200,000 gain in frame building over the same month last year brought the San Francisco building permit total for June to \$1,670,470, Chief Clerk S. J. Rosenblum of the Central Permit Bureau announced yesterday.

Release of the monthly permit total revealed that the decline in construction for the first 6 months of 1938, as compared to the same period in 1937, had widened to slightly more than \$1,000,000. The lack of public works and large private building projects was tabbed as the principal cause of the decline.

Permit valuation in the Class A, B, and C; U. S. Government; Harbor and Exposition classifications during June, 1937, alone was \$809,435 higher than the valuation in the same classes for June, 1938.

Three thousand eight hundred and forty-eight permits were issued during the first six months of 1938 for a total value of \$9,904,761, as compared to 4,363 permits issued during the same period last year for a total of \$10,952,781.

In June, 1938, 733 permits were issued for construction costing \$1,670,470, in contrast to 683 permits issued in June, 1937, for work valued at \$2,195,120.

HESTER TO HEAD DEPT. FOR MONTH

Sidney J. Hester today takes over as Director of the San Francisco Department of Public Works for a thirty-day period following his appointment to the post by City Administrator Alfred J. Cleary. He replaces William H. Worden who submitted his resignation early in June.

Mr. Hester was Deputy Director of the Department of Public Works under Mr. Worden. He will resume his former position August 1, when A. D. Wilder, well known engineer and former California P W A Administrator, is installed as Director, relinquishing his position as Executive Engineer of the San Francisco Housing Authority.

Notice to Proceed On Tunnel Issued

Action toward construction of the initial unit of Shasta Dam comes from Washington with the notification of the Colonial Construction Company, Spokane, by the U. S. Bureau of Reclamation to proceed with construction of the Shasta by-pass tunnel at the site of the proposed dam.

The Colonial Construction Company, at \$426,475, was the low bidder on the tunnel contract. The tunnel will carry Southern Pacific trains through the dam site until thirty-five miles of permanent track is relocated under the terms of a contract recently entered into by the Bureau of Reclamation and the Southern Pacific Company.

The Colonial Construction Company announces that men will begin work on the tunnel within a few days. About 250 men will be engaged in the work which will take 240 days to complete.

Shipments of electric industrial trucks and tractors during May, 1938 amounted to 78 units, a slight gain over the total of 71 units shipped during the previous month, according to the Bureau of Census.

BIDS JULY 19 ON EARTHFILL DAM AT SONOMA

Azevedo Low on Cottages; Lindgren & Swinerton Bid Office Foundation;

SACRAMENTO, June 28.—State Architect George B. McDougall today opened bids on two important projects in the current institutional building program and invited proposals on two other contracts.

Proposals will be opened July 19 for construction of the Sutfenfield Dam water development system at Sonoma State Home, and for erection of a temporary classroom building, field house and concrete bleachers at Santa Barbara State College, Mr. McDougall announced.

Azevedo Construction Co., Sacramento, submitted a low bid of \$143,289 on the general contract for construction of cottages at Sonoma State Home, Eldridge, Moore & Roberts, San Francisco, were second low bidders at \$152,600, while Campbell Construction Co., Sacramento, submitted a third low proposal of \$152,644.

Nelson Bids Two

James A. Nelson, Inc., was low bidder on the Eldridge plumbing contract at \$13,280; Nelson also was low bidder at \$18,385 on heating work; and Normal A. Russell, Santa Rosa, submitted a low electrical bid of \$6,783.

Lindgren & Swinerton, Inc., San Francisco, submitted the lowest proposal for construction of foundations for State Office Building No. 3 in Sacramento, with a figure of \$23,987. Azevedo was second on this job at \$24,922, and Campbell Construction Co. submitted a close third low proposal of \$24,999.

The water development project at Eldridge will consist of the following: Sutfenfield dam, a rolled earth fill structure; concrete outlet tower, steel footbridge, concrete spillway, concrete and cast iron piping, pumps and other miscellaneous items.

STATE RECEIVES BIDS ON THREE ROAD PROJECTS

**Hemstreet & Bell, Harold Smith
Franzini & Fredenburg
Low Bidders**

SACRAMENTO.—Low bids aggregating \$144,695 today were submitted to the State Division of Highways for highway and bridge construction in San Mateo, Humboldt and Yolo counties.

Franzini and Fredenburg, San Rafael, at \$19,646.35, submitted the low bid for construction of a reinforced concrete bridge across Colma Creek in San Mateo county. The proposed bridge will be located in the City of South San Francisco.

Other bidders included: Eaton and Smith, \$20,262.45; Palo Alto Road Materials Company, \$20,343.95; M. B. McGowan, Inc., \$24,263; Albert E. Mangs and Associates, \$25,669.85; Healy-Tibbitts Construction Company, \$26,861.40; and John Rocca, \$27,989.25.

The bridge will consist of one 24-foot span and two 19-foot 6-inch spans. About 0.06 miles of roadway will be graded and surfaced with plant-mix surfacing under the contract. Unit prices were submitted on twenty-two items.

Cache Creek Bridge

Hemstreet and Bell, Marysville, at \$68,225.25, submitted the low bid on the largest contract for which bids were opened here today. The work involves construction of a reinforced concrete bridge across Cache Creek about three and one-half miles northwest of Rumsey in Yolo County. Grading and road-mix surfacing of 0.5 miles of approaches are called for also.

The following submitted bids: Campbell Construction Company, \$73,332; C. W. Caletti and Company, \$74,130.75; Robert McCarthy, \$84,622.30; and Holdener Construction Company, \$95,429.50.

The work involved the following principal items: 15,400 cubic yards of unclassified roadway excavation; 2700 pounds of miscellaneous steel; 1015 cubic yards of Class A Portland cement concrete structures; 260,000 pounds of bar reinforcing steel; 53.8 tons of liquid asphalt of various types; and 7250 square yards preparing, mixing and shaping roadbed.

Humboldt Grading

The third contract called for grading approximately 0.25 miles of highway and surfacing with plant-mix surfacing and sacked concrete and placing rip-rap at Greenlow Bluffs, Humboldt County. Harold Smith, St. Helena, at \$56,823.50, submitted the low bid. The second lowest bidder was Claude C. Wood, Lodi, at \$57,310.50.

Other bidders included: N. M. Ball and Sons, and E. E. Smith, \$58,727; Lee J. Immel, \$58,743; Mercer-Fraser Company, \$59,901;

GRADING, FILLING PROPOSALS ASKED

Bids for construction of miscellaneous grading and filling at Hickam Field will be opened July 19, according to Captain John A. Hunt, who recently replaced Captain H. B. Nurse as Constructing Quartermaster at the island air base.

Bids should be addressed to the Purchasing & Contracting Officer, Office of the Constructing Quartermaster, Hickam Field. T. H. Proposals will be opened at that office at 11 a.m. July 19, Captain Hunt said.

PACIFIC AREA BUILDING OUT FOR PROPOSALS

Bids for construction of the Pacific Building on the site of the Golden Gate International Exposition of 1939 yesterday were called for July 18 by the San Francisco Bay Exposition.

The proposed building will be dedicated to all the nations united by the Pacific.

It will be a one-story and mezzanine frame structure, about 100 feet square.

Deposit Returnable

Bids will be opened at 3:00 p.m., July 18 at the headquarters of the San Francisco Bay Exposition, 585 Bush street. Commencing at 2:00 p.m. today plans and specifications may be obtained in Room 222 upon deposit of \$20, refundable upon return of the plans in good condition within 15 days from the date of issue.

The contract for construction of pile foundations for the Pacific Building was awarded to A. W. Kitchen and Company late last month. The contract price was \$2,638.

The Pacific Building will be a cruciform structure and will house exhibits of discovery and exploration, science and invention, art and archeological, trade and travel. Informal native dances, music and dramatic spectacles depicting recreational and artistic activities of the Pacific Area nations will be held daily, according to the Committee of the Pacific Area headed by Dr. Ray Lyman Wilbur.

Hemstreet and Bell, \$61,012.50; Fred J. Maurer and Son, \$62,472.50; Ransome Company, \$65,392; and Guerier Brothers, \$77,391.

Unit prices were submitted on the following principal items: 5000 cubic yards of unclassified excavation; 18,000 cubic yards of imported borrow; 550 tons of mineral aggregate plant-mix surfacing; 42 tons of liquid asphalt of various types; 3900 cubic yards of sacked concrete rip-rap; and 1300 lineal feet of timber guard rail.

SCHEDULE BIDS ON SIX STATE HIGHWAY JOBS

**Placer, Mendocino, Lake, Los
Angeles, Orange Work
Advertised**

SACRAMENTO.—Six State Division of Highways contracts went out for bids here today as the State Highway Commission authorized advertisement for proposals on work in Placer, Mendocino, Lake, Orange and Los Angeles counties.

Bids on two projects will be opened in Sacramento July 27; on three in Los Angeles July 28; and on one in San Francisco July 29.

Jobs authorized for advertising today are located by counties as follows:

PLACER COUNTY—Construction of a steel and reinforced concrete deck overhead crossing over the Southern Pacific tracks at Colfax. The overpass will consist of one 101.99-foot span; one 94-foot span; one 93.97-foot span; one 90-foot span; one 88.59-foot span; and one 35.75-foot span. Bids open in Sacramento July 27.

MENDOCINO AND LAKE COUNTIES—Grading, road-mix surfacing and placing sacked concrete riprap on about six-tenths of a mile at various locations in the two counties. Bids open in Sacramento July 27.

MENDOCINO COUNTY—Construction of a reinforced concrete girder bridge across South Eel River about nine miles northwest of Longvale, and grading and surfacing about 0.23 mile of approach roadway. The bridge will consist of one 95-foot span, two 84-foot, 6-in. spans and two 28-foot cantilever spans on concrete piers. Bids will be opened at the District office in the State building, San Francisco, July 29.

ORANGE COUNTY—Repairing a reinforced concrete continuous girder span across the Santa Ana river about two miles north of Newport Beach. Bids open in Los Angeles July 28.

ORANGE COUNTY—Repairing a bridge across San Juan Creek about eleven miles east of San Juan Capistrano and grading and surfacing approaches. Bids open July 28 in Los Angeles.

LOS ANGELES COUNTY—Paving with Portland cement concrete, plant-mix surfacing and asphalt concrete on about 3.7 miles on Sepulveda boulevard between San Fernando Road and Brand boulevard. Bids open in Los Angeles July 28.

Shipments of steel lockers amounted to \$1,063,748 during the first five months of 1938, as compared to shipments amounting to \$1,960,070 during the same period in 1937, the Bureau of Census reports.

ORDER VOLUME AT NORTHWEST MILLS GAINING

Rail Delivery Bookings In- crease; Lower Prices Held Cause

A total of 151 down and operating mills in Washington and Oregon which reported to the West Coast Lumbermen's Association for the week ending June 25, 1938, produced 76,930,125 board feet of lumber. At the rate of cutting at the reporting mills, the entire industry produced 48.8 per cent of its average weekly cut during 1926-29.

The new business reported taken last week by the 151 mills was 92,108,776 board feet. Shipments were 80,258,943.

Details of orders and shipments as reported by the 151 mills are:

	Orders	Shipments
Rail	38,083,292	33,844,811
Domestic		
Cargo	41,435,015	32,895,327
Export	4,128,064	5,056,400
Local	8,462,405	8,462,405

92,108,776 80,258,943

"During the past month a gradual betterment has been shown in the volume of orders taken weekly by West Coast mills," said an association statement.

"Lumbermen attribute this betterment to scarcity of stocks in the consuming centers and extremely low prices out here. Buyers have been coming into the market particularly for rail delivery, apparently in the belief that the bottom in lumber prices has been reached. Average West Coast prices currently are reported several dollars below cost. Mill prices for all American softwood lumber have suffered serious decreases during the past year.

"As a result of unsatisfactory market last fall and during the past 8 or 9 months the stock of unsold lumber at West Coast mills is lower according to reports to the West Coast Lumbermen's Association than at any time in the past."

"OXY-ACETYLENE TIPS" FOR JULY AVAILABLE

The July edition of "Oxy-Acetylene Tips", published by Linde Air Products Company, 30 East Forty-second street, New York City, is off the press and ready for distribution. Copies may be obtained without charge upon application to the company at the above address.

The July issue includes the following articles: Welding the Low and Medium-Alloy Steels; Gas Compressor Pistons; Scraping Operations Improved; Two Thousand Welds; Flame-Shaping Spillway Rockets; Saving Soles; Reclaiming Tractor Tread Eyelets; and other regular "Oxy-Acetylene Tips" departments.

BIDS ON RUNWAY SURFACING ASKED

Bids for constructing wearing surface on runways at the Sacramento Army Air Depot were invited last week by the office of the Constructing Quartermaster. Proposals will be opened at the depot July 20, it was announced.

The contract calls for construction of three-quarters-inch cold asphalt concrete wearing surface, including seal coat, on existing runways, taxiways and to the compass swinging base. Cost of the work is estimated at approximately \$50,000.

Must Finish Shasta Tunnel Before Work On Dam Is Started

Construction of Shasta Dam, for which the \$35,939,450 contract was awarded to Pacific Constructors, Inc. recently, cannot be started until the Shoofly tunnel, now under construction, is virtually completed, bureau of Reclamation officials said this week.

Under the contract, work must begin on Shasta Dam within 30 days after the contractor has received notice to proceed, and must be completed in 2,000 calendar days—about 5½ years—thereafter.

Before the notice to proceed can be issued, it will be necessary to complete, or virtually to complete, the Shoofly tunnel, which is now under construction at the dam site and through which the Southern Pacific main line railroad will be located temporarily while Shasta Dam is under construction.

Temporary Route

The Shoofly tunnel will serve as a temporary route for the railroad around the dam site while the permanent relocation of the railroad around the dam and reservoir is being made. When the permanent line is completed, the trains will be switched out of the Sacramento River Canyon and the Shoofly tunnel will then be used to divert the waters of the Sacramento River while the upper part of Shasta Dam is being constructed.

Central Valley project work was begun about 3 years ago. The contract for the construction of Shasta Dam, however, is the first covering a major structure to be awarded.

Work to date has consisted of construction of camps, investigation of dam sites, and the construction of Contra Costa Canal, which will serve to provide a supplement water supply for lands in Walnut Creek and Martinez, and for industrial cities along Suisun Bay.

BUREAU PLANNING 65 MILLION-LBS STEEL PURCHASE

Steel, Machinery Orders Pushed To Win Benefits of Lower Price

The purchase of 65,890,000 pounds of steel before August 15 is contemplated by the Bureau of Reclamation, Commissioner John C. Page reported to Secretary of the Interior Harold L. Ickes today.

The Bureau of Reclamation is pushing orders for steel and machinery manufactured of steel needed in connection with this great construction program in order to take advantage of the new lowered prices and also in order to spread quickly into the industrial cities benefits represented by such off-the-site work.

In addition to the steel orders, it is estimated that 500 tons of copper wire and other copper products also will be ordered before August 15.

Plan Other Purchases

Other purchases of steel and similar construction supplies will be made as the construction progresses, Mr. Page said, but the purchase of the materials noted will proceed immediately.

Included in the orders anticipated between now and August 15 are 13,550 tons of reinforcing steel, 9,430 tons of structural steel, 5,000 tons of rails and accessories, 1,915 tons of gates, valves, and hoists, 5,050 tons of pipe and penstocks, and 1,000 tons of turbines.

New FHA Standards Made Available Here

Important changes in building regulations, designed to increase the comfort, safety and livability of homes financed under the FHA insured mortgage system, are contained in the June, 1938, revised edition of "Property Standards," just published by the Federal Housing Administration.

Announcement of the new Property Standards, known as Circular No. 2, Part 6, revised June 1, 1938, was made by J. O. Davis, district director of FHA, who stated that copies now are available to architects, builders and others concerned with the home building industry. The new minimum requirements become effective the first of July.

Copies may be obtained, without charge, by applying to the district office of the Federal Housing Administration, 433 California street, San Francisco, or from the branch underwriting offices located in the Ray building at 1924 Broadway, Oakland, and in the Federal building, Sacramento.

PWA Allotments to California Projects To Aid \$27,000,000 Construction Work

With addition of a fifth list of allocations to those previously announced, allotments have been made to some 89 California projects to cost an estimated total of more than \$27,085,000, Regional PWA Director Kenneth A. Godwin revealed yesterday.

While the fate of some of the projects, notably the Alameda tube

under the Estuary, still is in doubt, most of them are expected to be speeded by the sponsoring communities.

To the time of going to press, allotments had been made to these jobs in California:

POMONA, Los Angeles Co., Calif.: New auditorium building. Estimated cost, \$73,500; Grant, \$33,075.
